$5 - 3 + 4 - 1 = 5$																																									
$6 - 2 + 1 + 7 = 12$																																									
$8 - 7 + 8 - 1 = 8$																																									
$7 - 5 - 2 + 9 = 9$																																									
 I can recall doubles of multiples of 10 up to 200.																																									
				Double...																																					
10	20	30	40	50	60	70	80	90	100	110	120	130	140	150	160	170	180	190	200																						
20	40	60	80	100	120	140	160	180	200	220	240	260	280	300	320	340	360	380	400
